Introduction of the Trustees standing for election

This incredible organisation, that is committed to fundraising for disabled people would not exist if it were not for the skilled and trusted individuals who have made it possible.

We recruit only the most caring and committed people who fight for the same values we treasure, and this makes all the difference. They are prepared to take the necessary action to fully support disabled individuals and we are so grateful to have them as part of our community.

Charity Reg. No. 1191762

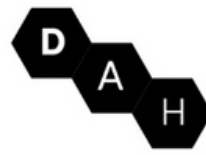

Graham Day

I am standing for reappointment as a trustee on the Board of Trustees at Disability Action Haringey (DAH).

As a founding member of DAH I have worked with the other trustees and staff team to lay the foundations of the charity as it is today. I have been fully committed to raising the awareness of the organisation not only in the community but within the local authority and voluntary sector.

Through the services provided by the charity it is clear there is a real need for DAH to both represent and empower D/deaf and Disabled people in the borough.

I wish to continue the journey of serving the D/deaf and disabled community and I hope I am given that opportunity to do so by receiving your vote.

Isha Turay

I am standing for reappointment as a trustee for Disability Action Haringey (DAH).

As a recent elected DAH trustee member, I have become pleasantly acquainted with the other trustees and the staff team, as well as the running's of the charity. In addition, I was one of the steering group members during the initial formation of DAH where I regularly attend meetings, and where I made valuable and useful contributions particularly where issues of culture and diversity are concerned.

Having been a carer to my disabled husband for over 25 years, I have a lived experience of the issues which people with disability experience. I therefore have a wealth of knowledge which I can continue to bring to the organization. As an ethnic minority, I have a unique experience of conveying awareness within communities of diversity about the support which DAH provides.

I would like to continue with the support I offered then and am hoping through your vote, to continue championing the needs of the Deaf/Disabled community in Haringey.
